PGS Centrum

WHO WE ARE

PGS Centrum was established in 2014 as a building construction services company focused on remodeling and maintenance primarily for Homeowners Associations (HOAs), condominiums and apartment rentals.

Over the years, the company has grown to support a variety of construction and building maintenance contracts and projects for commercial and residential clients, offering a wide variety of services, delivered by a dedicated team of professionals and highly qualified staff.

PSG Centrum's mission is to offer high quality services to all clients, regardless of scope and size, ranging from changing a light bulb, repairing a window, or more expansive general contracting projects. Services range from general repairs, temporary services or long-term maintenance and support. Regardless of the project, PGS Centrum has the expertise and manpower to get the job done.

Background

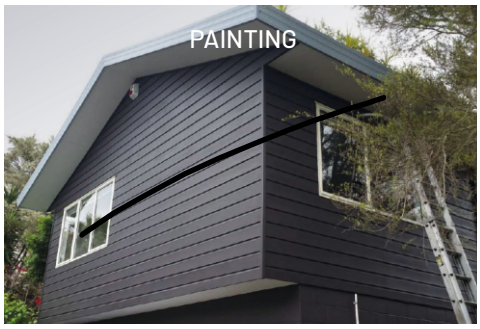

PGS Centrum was founded by Pedro Mejia, an entrepreneur, born and raised in Medellin, Colombia. He earned a degree in industrial engineering. His background includes nearly 30 years in the hotel and resort industry as a supervisor and lead in maintenance and building construction services for companies such as Starwood Vacations. Mejia created PGS Centrum leveraging his extensive industry expertise with the goal to provide affordable services to customers with a variety of services and specialty areas.
